## READ BEFORE SENDING ORDER

Seeds are sent postpaid, plants are not prepaid. Allow 75¢ for packing and postage. While we take great care to send out strong and healthy plants and pack very carefully, we can assume no responsibility for the plants after their safe delivery to carrier.

### WELCOME

Visitors are welcome at all times, nursery is open each week day from 9 till 5 and on Sundays 9 till 12 except during June, July, August and September when we are closed all day on Sunday. If you plan to make a trip here we suggest that you let us know a few days in advance so that our Mr. Faunce or Mr. Thatcher can be here to show you their interesting collection of plants.

### TALKS ON HERBS

Available for lectures to interested groups for an Herb Evening or Afternoon is our Mr. Clarence S. Faunce. These talks are illustrated with actual plant material. Included are a description of the most interesting herbs, their history and culture with suggestions for their use.

### HERB GARDENS

The services of our landscape department is available for the planning and construction of herb gardens. An herb garden does not need to be large to be interestingly beautiful.

### INTERESTING USES OF HERBS

Sprinkle finely chopped mint leaves over a chocolate sundae.

Dip melon slices or balls in lime or lemon juice, then in finely shredded mint leaves.

Float a few leaves of freshly bruised mint in chocolate milk.

Add chopped mint to cole slaw for a variation.

Bean soup or baked beans would never be complete without its pinch of summer savory either fresh or dried.

Finely chopped parsley added to your batter for french frying or deep frying gives a delicious flavor to chicken or shrimp.

Instead of using sage for your poultry dressing try using equal parts of sweet marjoram, savory and thyme.

For the different something in your next meat loaf add a good pinch each of tarragon, marjoram, chervil and rosemary. This always calls for seconds at our house.

To that tossed salad try adding finely cut tarragon and chervil along with the oil. It is deliciously different.

For a pleasing variation to your regular tomato soup add a pinch of fresh basil and the same of marjoram a few minutes before removing it from the fire.

Roast turkey with savory dressing is traditional in some sections near here, however do not over do the savory as its flavor is hot and spicy.

For delicious baked hamburgers, prepare meat as usual then cover the patties with a sauce of tomatoes, 1 teaspoon sugar, 2 tablespoons minced onion, 1 teaspoon minced thyme, 1 teaspoon salt, 3 tablespoons minced parsley, 2 teaspoons minced chervil.

For completing that cold plate of meat try the following dressing to be passed with the meat. 1/4 cup salad dressing, 1 tablespoon ground horse radish, 1 tablespoon minced chives, 1 teaspoon minced tarragon.

#### SEEDS FOR THE FLOWER ARRANGER

Varieties that we have found very useful in the making of arrangements in our flower shop.
